About me: My experience spans several decades in broadcast sound, beginning at ITV over 30 years ago!

I'm equally happy working in the great outdoors or studio, live or recorded, single or multi camera.

I've recorded sound at sea, desert, jungle, mountain, car to car, in the air and surgical theatre locations.

Documentary, entertainment, corporate, commercial, music, BTS, news, current affairs, art and sport.

Royals, world leaders, Hollywood movie stars, pop stars, the poor and some of the richest people on earth.

I've OB sound engineered on many global sports events and entertainment shows.

Tennis, football, golf, sailing, cricket, rugby, motor sport, boxing, basketball and several olympic games.

Remote op's, press conference, commentary, presenter links.

Based in the South East, approximately halfway between Heathrow and Gatwick airports.
